

## JOINT

all the bread you see on the menu and that we sell retail are baked on site daily. our sweets and breakfast breads are made from scratch at our sister store: baked & wired. ditto for ice cream, hippie crack, popcorn and other retail items.

we have paired and portioned each sandwich to a particular bread, so please... no bread substitutions unless, you don't want any bread, and we will prepare the dish with greens.

our cafe tables and communal table are for dining only. we have plenty of lounge, counter and outdoor seating if you want to be on your laptop.

## a few things about the MENU

our **biscuits** are not plain - the goods are baked in them. we usually have one meat and one cheese biscuit option but these vary daily and staff will let you know what we have when you order.

we have two types of meat biscuits - one has chunks of spicy sausage, cheddar & cilantro, the other has bacon, cheddar & chives. the cheese biscuit options include caramelized onion & goat cheese, or rosemary & goat cheese, or chive & goat cheese.

our handmade **bread**s are baked daily using organic wheat and a long, naturally leavened fermentation to bring out the max flavor and nutrition out of the grain.

the bread options we offer for **toast** are country sourdough, pain de mie and whole wheat sourdough.

our seasonal produce and organic egg supplier is **Earth N' Eats** a family first farm out of Waynesboro, PA .

all day

- just a **biscuit**> meat & cheese or goat cheese & herbs ...\$3.5
